

Tourism Operator Sustainability Training Course

Fall 2025 Intake

Overview

Unlock the Future of Tourism: Training Series on Regenerative & Sustainable Tourism

Step into the next era of destination management with our dynamic 5-part training course designed for tourism operators ready to lead the shift toward regenerative and sustainable tourism.

This hands-on, action-oriented virtual course covers everything from foundational principles and global best practices to team & community engagement, climate action, and regenerative practices implementation. Whether you're just starting your sustainability journey or looking to level up, this training empowers you with the tools, strategies, and real-world examples needed to create lasting change.

A large, jagged iceberg floats in the ocean. In the lower-left foreground, a dark-hulled ship with a white superstructure is visible. The ship's name "PLANKS" is written on its side. The background is a vast, open sea under a pale sky. The entire image has a semi-transparent dark overlay.

“Destination Management Organizations face the imperative to enhance their focus on the climate challenge, and to act now so that climate action is a part of key strategic and operational strategies and considered on both a near-term and long-term basis—not just as an exercise in compliance.”

Your Session Coaches

Jill Doucette
